Dear Debby Theriot

I am pleased to convey that your application for listing in the National Plan Oil Spill Control Agent Register for the dispersant product Corexit EC9500A has been successful.

CBOA will be listed as a Dispersant OSCA on the AMSA National Plan website at:
<https://www.amsa.gov.au/marine-environment/pollution-response/register-oil-spill-control-agents>

We will also include in the listing links to the supporting documents (SDS, product application instructions, the efficacy report, eco-toxicity report, and this letter of acceptance, as these are the information of most significance to likely users under the National Plan.

We also have an option of providing a hyperlink off the OSCA Register page to a product website, and if you wish to take advantage of this, please provide a suitable link to Paul Irving, who I understand you have already been working with on getting this application processed.

Yours sincerely

Mark Morrow
