A / To

MARINE DISPERSANT Concentrated (3rd generation) type 2 & type 3 dispersant for treatment of oil spills at sea. Surface cleaning of small oil spills.

FINASOL OSR 52

PRODUCT Main components:

- more than 30 weight % of non ionic surfactants
- more than 20 weight % of anionic surfactants
- Hydrocarbon and Propylene Glycol solvent

MSDS available on QUICKFDS website

STORAGE CONDITIONS Store in the original packaging in a clean dry room, away from direct sun light exposure, preferably between 5 °C and 35 °C. It is recommended to limit as much as possible frequency and amplitude of temperature variations. For more detailed information refer to the product safety data sheet.

INSTRUCTIONS TO USERS

Oil spill treatment at sea:

Undiluted: may be used from aircraft, helicopters or ship with appropriate spraying equipment. Usual dispersant to oil ratio between 1/50 and 1/20.

Diluted: used from ship at 1 part for 10 parts of sea water, with final dispersant to oil ratio between 1/1 and 1/3.

Do not mix with other product (storage and use). Dispersants should only be used as part of a Maritime and Coastguard Agency-approved contingency plan which clearly sets out the options for dealing with oil spill incidents in particular circumstances.

<i>Net weight</i> 1008 kg	<i>Batch</i>	EXPIRY DATE In normal storage conditions three (3) years from production date. Subject to extension by the customer after testing.
<i>Gross weight</i> 1072 kg	<i>Manufacturing date</i>
