

CleanBoost®
OIL ABSORBENT CBOA

Made in the USA

CBOA
Bioremediation (Class 3, 3.1) Agent & Natural Loose Sorbent (Class 4, 4.1)

Made from 100% natural blend of processed moss

General Data:
Absorption: up to 12 times its weight.
Reaction Time: instant.
Retention: meets leachate standards.
Toxicity: non-toxic, environmentally safe.
Disposal: incineration or landfill in accordance with local regulatory authority guidelines.

Products absorbed:
Polychlorinated biphenyls (PCBs), fuel oil, aviation fuel, oil-based paints, crude oil, oil-based inks, vegetable oils and more. See Southerntechnologies.com.au for a full list.

Handling & Storage
No special storage requirements
Avoid creating excessive dust during handling.
As general good practise, avoid breathing dust by using adequate ventilation and/or NIOSH or MSHA approved respirator for nuisance dust of this type.

Transportation: Non-Toxic, Non-Hazardous product
TDG: Not regulated
DOT: Ground/Air Transport - NAFTA: Not regulated
Water/Air transport International: Not regulated
AU Code for the transport of dangerous goods by road & rail: Not regulated

Volume: 62L - 8KG

CBOA Meets the Requirements of the Australian Oil Spill Control Agents Policy

Distributed by Southern Technologies PTY LTD
PO Box 897, Mt Eliza, VIC 3930
Ph: 04 9894 1444
