

Manufacture date: XXXX/2013
 Expired date: XXXX/2016
 Product code No: XXXX
 Net weight: Grams
 Net volume: Litres

E.P.S. Oil Adsorbent is listed as a Loose Sorbent on the AMSA National Plan Oil Spill Control Agent (OSCA) Register. It quickly and efficiently cleans up oil or chemical spills on both land and water, and may be used in ships, refineries and sewerage systems.

<p>Not classified as hazardous for transport.</p> <p><i>Always consult our E.P.S. Oil Adsorbent's Material Safety Data Sheet and product catalogue before use.</i></p> <p>Use Instruction: Apply E.P.S. Oil Adsorbent in the adsorption capacity of approximately 1 part E.P.S Oil Adsorbent to 10 parts oil by weight, as tested by SGS Leeder Consulting.</p> <p>Water: Place booms round the oil spill area. In still conditions, create some water movement to stir or mix the oil and product together. In stormy conditions, simply leave the adsorbent on the sea for 15 minutes. The product colour will change from light grey to black as the adsorbent coheres with oil. Use tools (nets, sucker trucks and sand suckers pumps) to collect and place the used adsorbent into a container.</p> <p>Land: Cover the spill area with the adsorbent and leave for a minute; Brush the adsorbent back and forth until there is no residual spill left; Place used adsorbent into a container.</p> <p><i>For further information, please see our product brochure or the AMSA OSCA Register (SGS Leaders sorbency test report here)</i></p>	<p>Ingredients: Silicon dioxide, Aluminium oxide, Potassium oxide, Sodium oxide, Iron oxide, Calcium oxide, Ferrous oxide, Magnesium oxide, Water. PRODUCT OF CHINA</p> <p>First Aid: May cause respiratory irritation. Avoid breathing dusts. Use only outdoor or in a well-ventilated area. Wear chemical safety goggles, suitable gloves and clothing protection. Eyes: immediately flush eyes with water. If irritation persists, please go to see a doctor. Skin: Immediately wash skin with water. If irritation develops and persists, please see a doctor. Ingestion: Drink water and get medical aid. Inhalation: If breathing problem happens, move person to fresh air.</p> <p>Storage: E.P.S. Oil Adsorbent only needs to be stored in a cool and ventilated place. Keep container tightly closed when it is not in use. Dispose of container in according with all applicable federal, state and local regulation.</p>
