Dear John

I am pleased to convey that your application for re-listing in the National Plan Oil Spill Control Agent (OSCA) Register for the product Dasic SlickGone NS Oil Spill Dispersant has been accepted.

Dasic SlickGone NS listing as an Oil Spill Dispersant (subtypes 1.2 water-dilutable concentrate and 1.3 concentrate) oil spill control agent will be updated on the AMSA National Plan website at:

<https://www.amsa.gov.au/marine-environment/pollution-response/register-oil-spill-control-agents>

The updated listing links to the latest SDS as provided by you, and all the original test reports and other publishable material that you provided as part of your original application as these are the information of most significance to likely users under the National Plan.

We also provide the option for a hyperlink from the OSCA Register page to a product website (currently to: <http://www.enviropacific.com.au/maritime>) which you can maintain or amend. Please respond by email to Paul Irving, (paul.irving@amsa.gov.au) who I understand you have already been working with during the application process.

Yours sincerely

Toby Stone
