

AMSA REGULATORY CHANGE SUMMARY

Reissued *Marine Order 505 (Certificates of competency – national law) 2022* comes into effect on 1 January 2023

Who does this draft order for Australian domestic commercial vessel (DCV) certificates of competency apply to?

A person who has or is intending to obtain a certificate of competency; organisations with responsibility for crewing; people operating under an AMSA general exemption to perform duties or functions; industry groups or bodies that represent seafarers; and organisations conducting or seeking approval to conduct final assessments.

What are the key changes?

1. National Standards for Commercial Vessels (NSCV) Part D to be incorporated into Marine Order 505;
2. Creation of five new kinds of certificates of competency:
 - a. Coxswain Grade 3 NC
 - b. Sailing Master Coastal NC
 - c. Sailing Master Offshore NC
 - d. Master <45 m NC
 - e. Master <100m NC;
3. Phasing out three kinds of certificates of competency which will no longer be issued:
 - a. Master <35 m NC
 - b. Mate <80 m NC
 - c. Master <80 m NC;
4. Creation of a new standard for the assessment of medical fitness for masters and crew of domestic commercial vessels;
5. Requirement for a medical certificate for all new certificates;
6. Provisions for the approval of organisations to conduct final assessments to be incorporated into Marine Order 505; and
7. Incorporating many existing general exemptions into Marine Order 505.

<p>4.1 Terms for calculating qualifying sea service</p> <p>In clause 4.2:</p> <p>underway means when the vessel is not:</p> <p>(a) at anchor; or</p> <p>(b) made fast to the shore; or</p> <p>(c) aground.</p> <p>watchkeeping duties means the duties of a master, chief mate or deck watchkeeper in charge of a navigational watch.</p> <p><i>Note</i> Other terms used in clause 4.2 are defined in section 4 including: deck capacity, deck certificate, dual certificate and engineering certificate.</p>			<p>This section lists the definitions used in this Schedule.</p>
<p>4.2 Calculation of qualifying sea service</p>		<p>3.1 Calculation of qualifying sea service</p>	<p>The changes to this section relate to measuring qualifying</p>

Marine Order 505 (2022)	Marine Order 505 (2013)	NSCV Part D (May 2017)	Notes on changes
<p>(1) Qualifying sea service is measured in hours spent performing the tasks appropriate to the kind of certificate to which it applies.</p> <p>(2) For qualifying sea service, a day is 8 hours.</p> <p>(3) Hours of service less than 8 in a day may be added to hours of service less than 8 in any other day.</p> <p><i>Example</i> 3 hours worked on Tuesday, 3 hours worked on Thursday and 3 hours worked on Saturday may be added together to make 1 day of qualifying sea service. The remaining hour may be used to add to further hours subsequently accumulated.</p> <p>(4) However, hours of service more than 8 in a calendar day do not count towards qualifying sea service.</p> <p>(5) Sea service performed by a person when the person is less than 16 years old may be counted as qualifying sea service:</p> <p>(a) only for a Coxswain Grade 1 or 2, or a Marine Engine Driver Grade 3 certificate; and</p> <p>(b) only if the person was at least 14 years old when the sea service was performed.</p> <p>(6) Qualifying sea service must be accrued on a vessel that is:</p> <p>(a) underway; or</p> <p>(b) at anchor with a person on anchor watch; or</p> <p>(c) being manoeuvred to free it from being aground.</p> <p>(7) However:</p> <p>(a) for a deck certificate — up to 15% of the required sea service may be accrued on a vessel that is not mentioned in subclause (6) while the applicant is performing duties in a deck capacity or undertaking refitting work; and</p> <p>(b) for an engineering certificate — up to 33% of the required sea service may be accrued on a vessel that is not mentioned in subclause (6) while the applicant is performing duties in an engineering capacity or undertaking refitting work.</p> <p>(8) A person who holds a dual certificate, and performs sea service in a dual role on a vessel with propulsion power ≤ 750 kW, may count that sea service as qualifying sea service for one or more of the following:</p>		<p>(1) Qualifying sea service is measured in days spent performing the tasks appropriate to the class of certificate to which it applies.</p> <p>(2) An applicant for a certificate of competency must accrue at least half the qualifying sea service required for the certificate in the 5 years before the application.</p> <p>(3) Sea service performed by a person when the person is less than 16 years old may be counted as qualifying sea service:</p> <p>(a) only for a Coxswain Grade 1 or 2 or a Marine Engine Driver Grade 3 certificate; and</p> <p>(b) only if the person was at least 14 years old when the sea service was performed.</p> <p>(4) For qualifying sea service:</p> <p>(a) a day is 7.5 hours; and</p> <p>(b) sea service of at least 7.5 hours in any 24 hour period is taken to be served as a whole day and no more than a whole day.</p> <p>(5) An applicant is credited an additional 10 days qualifying sea service for each 20 days qualifying sea service accrued on voyages:</p> <p>(a) each of which is more than 24 hours long; and</p> <p>(b) each of which includes periods underway in a watchkeeping capacity or undertaking deck duties in both day and night; and</p> <p>(c) on which fatigue is managed in accordance with the STCW Convention.</p> <p>Note For paragraph (c) — see section A-VIII of the STCW Code.</p> <p>(6) Qualifying sea service:</p> <p>(a) may be accrued:</p> <p>(i) for a deck certificate — at up to 15% of the sea service required, on a vessel that is not underway, while the applicant is performing duties in a deck capacity or refitting work; and</p> <p>(ii) for an engineering certificate — at up to 33% of the sea service required, on a vessel that is not underway and while the applicant is performing engine related duties or refitting; or</p>	<p>sea service in hours rather than days to allow for part days to be added together.</p> <p>A day is changed from 7.5 hours to 8 hours.</p> <p>How to calculate a day is further clarified.</p>

Marine Order 505 (2022)	Marine Order 505 (2013)	NSCV Part D (May 2017)	Notes on changes
<p>(a) a dual certificate;</p> <p>(b) a deck certificate;</p> <p>(c) an engineering certificate.</p> <p>(9) A person who holds both a deck certificate and an engineering certificate, and performs sea service in a dual role on a vessel with propulsion power ≤ 750 kW, may count that sea service as qualifying sea service for one or both of the following:</p> <p>(a) a deck certificate;</p> <p>(b) an engineering certificate.</p>		<p>(b) in any other case — must be accrued while the vessel is underway.</p> <p>(7) All of the sea service in dual certificate duties (deck and engineering) on vessels with a propulsion power ≤ 750 kW can be counted as service for both deck and engineering duties only for dual certified roles performed in accordance with the dual certification rules mentioned in subclause 6(4) of Schedule 1 of Marine Order 504 (Certificates of operation and operation requirements — national law) 2018.</p> <p>(8) For calculating sea service, a vessel is underway when it is:</p> <p>(a) operating; or</p> <p>(b) not tied to a jetty; or</p> <p>(c) at anchor with a person on anchor watch; or</p> <p>(d) being manoeuvred to free it from being aground.</p> <p>(9) For a person living on a vessel, time spent on the vessel may be counted as qualifying sea service only if the person is carrying out relevant navigational or engineering work during that time.</p> <p>Example of time that may be counted as qualifying sea service</p> <p>Time when the person is doing any relevant navigational or engineering work and the vessel is carrying out its normal commercial operations, taking passengers, navigating, at anchor during sight-seeing or charter.</p> <p>Example of time that may not be counted as qualifying sea service</p> <p>Time when the person is not doing any relevant navigational or engineering work, eg when the vessel is at anchor with the person off duty.</p>	
<p>4.3 Recognition of other kinds of service</p> <p>The National Regulator may recognise qualifying sea service, in capacities or trades or on kinds of vessels, that is not recognised by this Marine Order as qualifying sea service according to its equivalence to:</p> <p>(a) the duration and frequency of voyages or refits; and</p> <p>(b) the kind of duties performed and their duration and frequency; and</p> <p>(c) the level of responsibility during the sea service; and</p>		<p>3.2 Recognition of other types of service</p> <p>The National Regulator may recognise qualifying sea service, in capacities or trades or on kinds of vessels, that is not recognised by this Part as qualifying sea service according to its equivalence to:</p> <p>(a) the duration and frequency of voyages; and</p> <p>(b) the kind of duties performed and their duration and frequency; and</p> <p>(c) the level of responsibility during the service; and</p>	<p>This section remains unchanged from NSCV Part D.</p>
