

MARPOL CONVENTION

DISCHARGE OF GARBAGE AND OIL INTO THE SEA IS

PROHIBITED

Garbage and oil should be retained on board for disposal onshore unless provided below

FOOD WASTE GROUND OR PROCESSED so that particles are no greater than 25mm	While underway and as far as practicable, but not less than 3nm from 'Nearest Land'^ NOTE: Discharge of cooking oil into the sea is prohibited
FOOD WASTE that has not been ground or processed	While underway and as far as practicable, but not less than 12nm from 'Nearest Land'^
CLEANING AGENTS/ADDITIVES that are not harmful to the marine environment contained in cargo hold, deck and external surface wash water	Discharge permitted. Refer to MARPOL Annex V and guidelines for more information.

Vessels of 100GT and above, and every vessel which is certified to carry 15 or more persons - refer to the Garbage Management Plan

OILY WATER FROM MACHINERY SPACE BILGES	While underway and processed through oil filtering equipment that ensures that the oil content of the effluent does not exceed 15ppm. Refer to MARPOL Annex I.
OILY RAGS, OIL RESIDUE (SLUDGE) AND USED LUBE OIL	Retain on board for disposal onshore.

Garbage and oil residue (sludge) may be incinerated in accordance with MARPOL Annex VI, subject to local requirements.

Vessels of 400GT and above must record each discharge or incineration of garbage, oil or oil residue in the Garbage Record Book or Oil Record Book Part I

As of 1 May 2024, vessels of 100GT and above will be required to record each discharge or incineration of garbage in the Garbage Record Book.

Violation of these requirements may result in penalties

Australian Government
Australian Maritime Safety Authority

^The definition of 'Nearest land' includes waters of the Great Barrier Reef and Torres Strait area and can be found in MARPOL Annex V and on the AMSA website.

REPORTING ILLEGAL MARPOL DISCHARGES

You can help keep our seas clean by reporting any violations of the discharge regulations

Information is needed to assist in investigating and prosecuting offenders. Useful information includes:

- the **name** of the vessel responsible;
- the **time, date and location** of the incident (distance from land, GPS coordinates);
- details of **how much and what type** of discharge; and
- other **witnesses** or vessels in the vicinity.

If possible take photographs or video images of the pollution, the vessel or person involved.

Please REPORT illegal discharges to:

Phone: 1800 641 792 (freecall) or
(02) 6230 6811 at any time

Please keep this information card on board your vessel.

MARPOL requires that all vessels of 12m or more in length overall display placards that notify the crew and passengers of the garbage discharge regulations.
