

MUSTY2009

Oil Spill Cleaner

Loose Granular Sorbent

RECOVERIT

Vol/Wgt: 10/15/25kg – 20/30/50ltr. **Batch Date:** XX.XX.XX **Expiry:** N/A

CAUTIONS:

- **Compressed contents** – open into a container at least 6 times the package volume.
- **Consult** MUSTY2009 Safety Data Sheet and detailed Application Instructions before use.
- **Dust** can be eye and breathing hazards. Open in ventilated space. Use PPE.
- **Store** in impermeable containers, in a dry location, away from sunlight, acids, alkalis, and liquid hydrocarbons.

REGISTRATION: Meets the Australian Maritime Safety Authority Oil Spill Control Agents Register requirements as an Organic Loose Sorbent (Class 4.1).

COMPONENTS: Granulated elastomeric components from plant-sourced materials - Carbon, Hydrogen, Oxygen and Silicon.

TRANSPORT CODES: Not regulated for transport by road, rail, maritime or air.

HAZARD SYMBOL: Non-Hazardous

SAFETY and FIRST AID for over-exposure to MUSTY2009:

- **Inhalation** - use a dust-rated mask. For breathing difficulties or choking seek urgent medical attention.
- **Ingestion** - use a dust-rated mask. Non-toxic, but if large quantities are ingested seek urgent medical assistance.
- **Eye contact** - Use dust-rated eye protection. For eye contamination, do not rub. Flush with warm fresh or neutral saline water for 5-10 minutes. If eye irritation persists, seek medical attention.
- **Skin contact** – Use dust-rated skin protection. Wash skin with gentle soap and water. If skin irritation persists, seek medical attention.

When hydrocarbons hazards are present, understand the risks, use suitable hydrocarbon PPE, and refer all injuries to urgent medical attention.

URGENT* PRODUCT INFORMATION
